## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 1-22 are objected to because of the following informalities:

Claims 1, 11, and 12 do not clearly state how the differences in wavelengths are obtained, since they each first state that the differences are “observed differences”, but then state that the differences are “calculated” differences.

In claims 6 and 19, there is lack of antecedent basis in the claims for “the measured differences” in lines 2, e.g., the claim language is not consistent since claims 1 and 11 do not state that the differences are ‘measured’.

Claims 2-5, 7-10, 13-18, and 20-22 are objected to for being dependent on an objected base claim. Appropriate correction is required.

### ***Allowable Subject Matter***

2. Claims 1-22 would be allowable if rewritten and amended to overcome the objections set forth in this Office action.

The prior art of record does not disclose or suggest the following in combination with the remaining limitations of the claims:

A method for determining the thermal expansion coefficient of a substance comprising determining the absolute position represented by multiple resonant interference peaks of a Fabry-Perot etalon at each of two or more temperatures, and calculating the coefficient from observed and calculated differences in absolute positions (see claim 1).

The Examiner's reasons for the indication of allowable subject matter for claims 11-22 is stated in the Office action dated 2/24/04.

***Response to Arguments***

3. Applicant's arguments with respect to claims 1-22 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
